

This text is to show, how long are the lines in a regular paragraph. So this is just some uninteresting text. Dummy text here. Nothing interesting, move along. Really some very not useful text. I hope it is enough of text to see, where lines end.

And now we come to the part, that is problematic. See the set  $\{a_1, b_1, a_2, b_2, \dots, a_m, b_m\}$ ? How long the line is?
